2025 ADVENTURE SAILING PROGRAM

ADVENTURE SAILING IS ALL ABOUT DISCOVERY

ADVENTURE SAILING

Entering Grades 5-9
Time: 9 am - 3 pm

A SCIENCE & SAILING EXPERIENCE

This unique **STEM** based program is a combination of science, sailing, exploration and fun. These classes are taught in partnership with Iowa Lakeside Laboratories and the Okoboji Sailing Center. Students will discover areas of science that include biology, herpetology, and the study of water quality monitoring with afternoon sailing destinations around West Lake Okoboji. Lunch is included.

NO SAILING EXPERIENCE REQUIRED FOR ALL CLASSES!

JUNE 12-13

WHERE DID THESE LAKES COME FROM? Focus on the Great Lakes Area formation that includes geologic and archeological perspectives. | Afternoon sailing.

JUNE 19-20

HERPETOLOGY. Explore local reptiles and amphibians of the Iowa Great Lakes. Romp around local wetlands in search of these critters | Afternoon sailing.

JULY 10-11

Junior CLAMP-ologist
Cooperative Lakes Area Monitoring Project (CLAMP) is a volunteer lake monitoring program started in 1999. Students will collect and study water samples, learning about water quality in the lakes area. | Afternoon sailing.

JULY 24-25

BEES AND THE BREEZE. "Pollen thief, nectar robber or hero". Join us as we study the world of plant/insect interactions. | Morning sailing.
