

TUESDAY FRIENDS SCIENCE SEMINARS

Listen, learn and engage with scientists as they share their research.
7:00 pm each Tuesday, May 15 to August 14 2018 in Mahan Hall.

- May 22** ***A World of Change: Land Transformation and Climate Change in Iowa***
Connie Mutel, University of Iowa
- May 29** ***Harbingers of Change: Response of Great Lakes Diatoms to Climate Change***
Andy Bramburger, University of Minnesota Duluth
- June 5** ***Forgotten River: Why Science Writing Matters*** Lisa Dill, University Of Delaware
- June 12** ***Running with the Sun: ISU Solar Cars*** – Makenzie Kilma , Iowa State University
- June 19** ***Using Citizen Science and Dark Data to Illuminate Secrets of the Western Prairie Fringed Orchid*** Lori Biederman, Iowa State University
- June 26** ***The loway 2: Challenge, Hardship and Renewal***
Documentary and Discussion with Tammy and Kelly Rundle, Fourth Wall Films and John Doershuk, State Archaeologist of Iowa
- July 3** **NO PROGRAM – HAPPY HOLIDAY!**
- July 10** TBA
- July 17** ***Iowa's Megaflood? Big Boulders and Big History*** Kata McCarville, Upper Iowa University
- July 24** ***Beyond Chloride: Quantifying Localized Impacts of Road Salts on Urban Waters***
Rebecca Kauten, University of Iowa
- July 31** TBA
- August 7** ***Secrets of the Diatoms: How Microscopic Algae from the Polar Regions Reveal Earth's Climate History***: Presentation and Microscope Viewing
Beth Caissie and Colleagues from the International Polar Marine Diatom Workshop
